

WIDMER ELECTRONIC TIME STAMP MODEL TNT-3

Time, Date & Consecutive Number Stamp with Text

Mfg. Hackensack, NJ , USA

Model TNT-3 also available with L.E.D.digital clock display

WIDMER MODEL TNT-3

Time stamp is versatile, featuring high quality, clean, crisp imprints. It is compact and offers a wide variety of desirable features. It is a distinctive two tone, light and dark gray finish that will complement the décor of any office. The optional digital time display can be synchronized with the time print mechanism.

**Instant trigger operation – you just insert the paper.
Quick ribbon change – no mess.**

A new, open throat and finger indent case feature allows for greater accessibility. Documents of letter size or small tickets can be inserted with ease. The depth of the throat can be adjusted to allow a selection of imprint locations.

Stamping pressure can be electronically increased to penetrate through multi-part carbon and non carbon forms.

An inscription with up to 6 lines of text will be centered between the time & date and the numbering section.

To Operate

Simply plug into an ordinary AC circuit. The minutes, hours, AM and PM , and the date of the month advance automatically, as does the 6 auto-consecutive digit numbers and the ribbon.

Tamper Proof

Machine is locked with a key. Only authorized personnel can change the settings.
