

The First **Big Thing** in Time Clocks

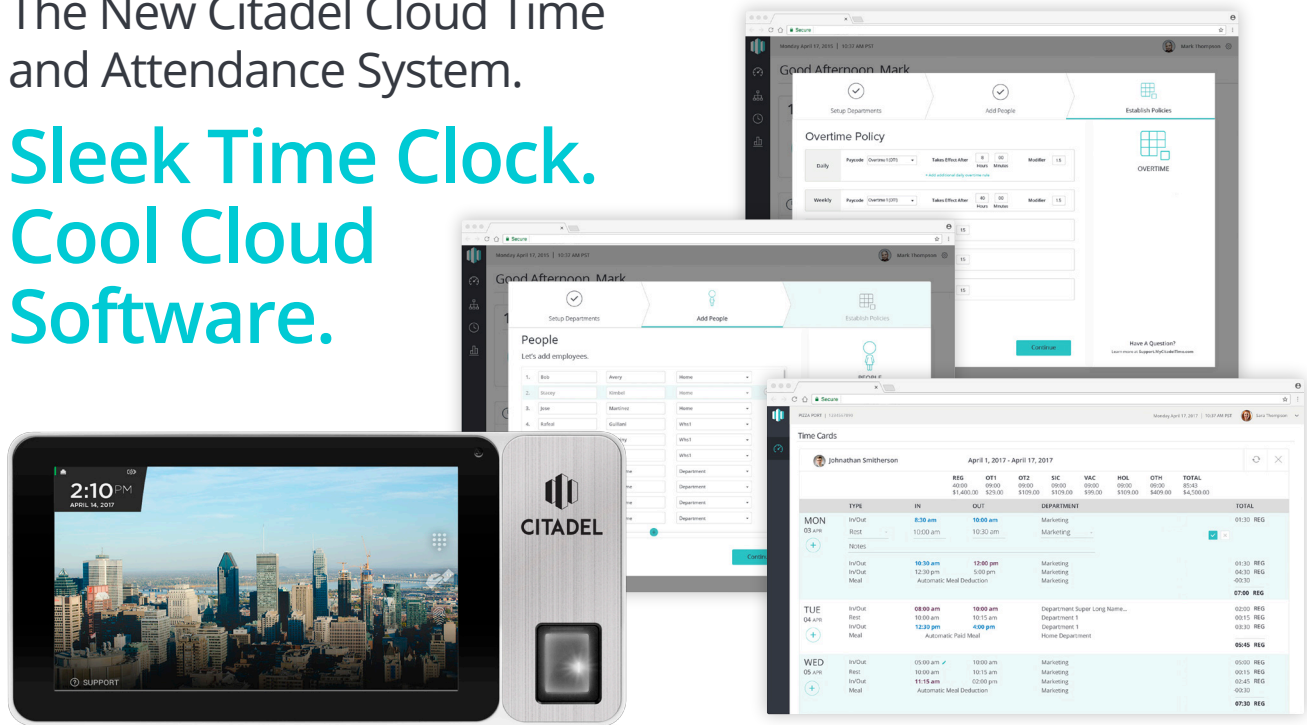

So much power at such an affordable price makes the Citadel Tablet Time Clock the sharpest time clock on the market.

- Large 7" capacitive touch screen radiantly displays time and attendance data
- Fingerprint sensor captures every employee punch securely in the cloud
- Choice of fingerprint, RFID card, or PIN punching based on business needs
- Built-in camera can append photos to any punch and take employee ID photos
- Choice of WiFi or LAN configuration to connect time clock to cloud software
- Data flows instantly and seamlessly from time clock to cloud for 24/7 access
- All time and attendance data captured in cloud for lightning quick management
- Required cloud subscription includes unlimited lifetime storage and software updates

The New Citadel Cloud Time and Attendance System.

Sleek Time Clock. Cool Cloud Software.

Affordable Plans For Any Size Business

Monthly subscription fees are required to use the Citadel Cloud Time and Attendance system. Citadel devices will not function without a subscription. No contract required.
